Bizhub C364e

Windows 10

MAY 20, 2021

BRIDGEPORT OFFICE SOUTIONS 43 Speers Rd, Winnipeg MB R2J 1M2 204-953-0540 | bpadmin@bpos.ca In Windows 10, the driver installation is straight forward. However, to ensure that the machine is not printing in colour by default, some configuration is necessary.

This document will cover the following steps:

- <u>Download the print driver</u>
- Install the print driver
- <u>Configure the default settings of the print driver</u>

You will need to be on the same network as the printer. If you are unsure if you are on the same network, please contact your network administrator.

After the driver is installed, you can change the default settings via the control panel.

• <u>Setting defaults from the control panel</u>

The Bizhub C654e is now installed on your Windows 10 computer.

Setting defaults from the control panel

If the default settings were not set during installation, then you may find that you are printing in color when you want gray scale. To keep costs of printing down, we recommend setting your default to gray scale.

Many users also wish to default to single sided printing.

- 1. Click Start and in the search box, type Control Panel
- 2. In the search results, click Control Panel

3. Beside View By, select Category

4. Under Hardware and Sound, click View Devices and Printers

5. *Right-Click* the printer (*KONICA MINOLTA C654SeriesPCL*) and select **Printing Preferences**

26.Anything configured in this window will be the printer's default.27.Click the Layout tab, then click Print Type and select 1-Sided
