Installing the print driver on Windows 10 is simple, however because authentication is enabled on the printer to restrict colour printing, some extra configuration is required. If the driver is not configured to use the *"public user"* account, the print job will be sent to the printer, but deleted at the printer and it **will not print**.

This document will cover the following steps:

- <u>Downloading and installing the print driver</u>
  - o <u>Download the print driver</u>
  - o Install the print driver
  - o <u>Configure the default settings of the print driver</u>

You will need to be on the same network as the printer. If you are unsure if you are on the same network, please contact your network administrator.

After the driver is installed, you can change the default settings via the control panel.

• <u>Setting the defaults from the control panel</u>

To remove the print driver, simply uninstall it from add/remove programs.

• <u>Remove print driver from your computer</u>

## Downloading and installing the print driver

#### Download the print driver

- 1. Open a web browser (Edge, Chrome, Firefox, etc)
- 2. In the *address bar*, type **km.bpos.ca** and press *enter*

3. In the *Quick Search box* on Konica Minolta's website, enter the model of your machine (c550i) and select it from the dropdown that appears

Quick Search:							
	c550i	Q					
	bizhub C550i						
	Popular Links						

4. Click the Drivers tab

	Resolutions	Drivers	Utilities	Videos	Other	Knowledge	Shop Talk	Plug-Ins
--	-------------	---------	-----------	--------	-------	-----------	-----------	----------

5. In the list of operating systems, click Windows\_10\_64 Bit

> <u>Windows_10_64 Bit (118)</u>	
> Windows_10 (119)	
> Windows XP 64-Bit (3)	

6. Click the **PCL** tab

 Select the latest version of the driver. Currently (August 4, 2021): Under Version 2.1.13.0, click C750i

C650i\_C360i\_C4050i\_C4000i\_Series\_C3320i\_PS\_PCL\_FAC\_v2.1.13.0.zip

Version 2.1.13.0 WHQL 🤣

- 8. Open your **Downloads** folder (or the location you saved the file to)
- 9. Find the file you just downloaded

10. Right-Click the file and select Extract All

C750i_C650i_C360i_C4050i_C4000i_Series_C3320i_PS_PCL_FAX_v2.1.13.0	2021-08-04
	Open
	Open in new window
	Extract All Pin to Start

11.Select a destination to extract the files to and ensure that the *Show extracted files when complete* checkbox is **checked** and then click **Extract** 

			$\times$
	~	Extract Compressed (Zipped) Folders	
		Select a Destination and Extract Files	
1		Files will be extracted to this folder:

		Show extracted files when complete	
		Extractance	el l

#### Install the print driver

12.In the folder that opens (if you did not check *show extracted files when complete,* you will need to locate the extracted folder), double-click the **Driver** folder

#### 13. Double-click Setup64 to run the installer

	Bmp	2021-08-04 1:52 PM	File folder

and and a	Setup	2021-08-04 1:52 PM	Configuration sett	2 KB
	Setup64	2021-08-04 1:52 PM	Application	1,404 KB

**\*\*NOTE\*\*** If you receive an error, please double-click **Setup** to run the application for a non-64Bit environment.

14.Read the *Software End User License Agreement*, check the *Agree the Software End User License Agreement* and then click **Next** if you agree to the agreement, or click *Cancel* to cancel the setup

15. The software will search for the printer on the network. If the printer cannot be found, ensure you downloaded the proper driver and that you are on the same network as the copier. Please contact your network

administrator of you require assistance.

Select *"Select Printers/MFPs to Install from the list"* and click Next (*If there are more than one and you are unsure which to select, contact your network administrator*)
